CONTENTS OF VOLUME 214

No. 1. *April* 1971

PAGE

The effect of splanchnic nerve stimulation on gastric acid secretion and mucosal blood flow in the anaesthetized cat. By J. D. Reed, D. J. Sanders and Valerie Thorpe 1

The inotropic and chronotropic effects of catecholamines on the dog heart. By C. M. Furnival, R. J. Linden and H. M. Snow . 15

Presynaptic depolarization of myelinated afferent fibres evoked by stimulation of cutaneous C fibres. By W. Jänig and M. Zimmermann 29

Effects of graded pulsatile pressure on the reflex vasomotor responses elicited by changes of mean pressure in the perfused carotid sinus-aortic arch regions of the dog. By Jennifer E. Angell James and M. de Burgh Daly 51

The effects of altering mean pressure, pulse pressure and pulse frequency on the impulse activity in baroreceptor fibres from the aortic arch and right subclavian artery in the rabbit. By Jennifer E. Angell James 65

The effects of changes of extramural, 'intrathoracic', pressure on aortic arch baroreceptors. By Jennifer E. Angell James . 89

Transfer of alanine isomers by rat small intestine. By J. de la Noüe, H. Newey and D. H. Smyth 105

The contribution of the adrenal gland to the total amount of progesterone produced in the female rat. By A. B. Fajer, Margarethe Holzbauer and Helen M. Newport . . . 115

A search for odour encoding in the olfactory lobe. By Minoru Yamada 127

Effect of mitosis inhibitors on blood platelet microtubules and aggregation. By John M. Sneddon 145

Noradrenaline release from isolated muscles of the nictitating membrane of the cat. By S. Z. Langer and Marthe Vogt . . 159

Effects of changing the ionic environment on passive and active membrane properties of pregnant rat uterus. By Y. Abe . . 173

No. 2. *April* 1971

PAGE

The effect of environmental conditions on the growth and function of brown adipose tissue. By M. J. Hardman and D. Hull . 191

The responses of aortic arch and right subclavian baroreceptors to changes of non-pulsatile pressure and their modification by hypothermia. By Jennifer E. Angell James 201

The distribution of chloride ions in the smooth muscle cells of the guinea-pig's taenia coli. By R. Casteels 225

Oxytocin and ADH secretion in relation to electrical activity in antidromically identified supraoptic and paraventricular units. By R. E. J. Dyball 245

Variations in mucosal water and sodium transfer associated with the rat oestrous cycle. By Ann D. Crocker 257

Receptive fields of cones in the retina of the turtle. By D. A. Baylor, M. G. F. Fuortes and P. M. O'Bryan 265

The effect on drinking of peptide precursors and of shorter chain peptide fragments of angiotensin II injected into the rat's diencephalon. By J. T. Fitzsimons 295

Spatial synaptic distribution of recurrent and group Ia inhibitory systems in cat spinal motoneurones. By R. E. Burke, L. Fedina and A. Lundberg 305

The effects of ethacrynic acid and other sulphydryl reagents on sodium fluxes in frog muscle. By D. Erlij and G. Leblanc . . . 327

Ionic dependence of protein transport across the new-born pig intestine. By M. W. Smith 349

No. 3. *May* 1971

The lymphatics of the kidney and the formation of renal lymph. By G. H. McIntosh and Bede Morris 365

Peripheral nerve activity in response to heating the cat's skin. By Jan A. J. Stolwijk and Ira Wexler 377

Analysis of the effluxes of sodium, potassium and chloride ions from smooth muscle in normal and hypertonic solutions. By Alison F. Brading 393

Heat production in the gastro-intestinal tract of the dog. By A. O. Durotoye and J. Grayson 417

PAGE

Membrane properties of the smooth-muscle fibres of the guinea-pig portal vein. By Y. Ito and H. Kuriyama 427

The origin of lipoprotein in the intestinal and hepatic lymph of unsuckled new-born calves. By A. K. Lascelles and J. C. Wadsworth 443

The effect of variations in heart rate and regional distribution of blood flow on the normal pressor response to diving in ducks. By P. J. Butler and D. R. Jones 457

The control by internal calcium of membrane permeability to sodium and potassium. By P. J. Romero and R. Whittam . . 481

The influence of the chloride gradient across red cell membranes on sodium and potassium movements. By D. Cotterell and R. Whittam 509

The synthesis, turnover and release of surplus acetylcholine in a sympathetic ganglion. By B. Collier and H. S. Katz . . 537

The intracellular localization of kallikrein, trypsin and amylase in dog pancreas. By K. D. Bhoola and Gundula Dorey . . 553

The influence of hepatic portal circulation on urine flow. By C. C. Liang 571

The transfer of free α-amino nitrogen across the placental membrane in the guinea-pig. By Margaret L. Reynolds and Maureen Young 583

Effect of injury on shivering thermogenesis in the rat. By H. B. Stoner 599

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

22–23 *January* 1971

YOUNG, MAUREEN and REYNOLDS, MARGARET L. The transfer of free α-amino nitrogen across the placental membrane in the guinea-pig 583

ZIMMERMANN, M. and JÄNIG, W. Presynaptic depolarization of myelinated afferent fibres evoked by stimulation of cutaneous C fibres 29

SUBJECT INDEX

Acetylcholine, synthesis and release in a sympathetic ganglion of (cat), 537
Adrenal gland, progesterone from (rat), 115
Alanine, intestinal transport of isomers of (rat), 105
Amino acids, mutual inhibition of brain entry by (rat), 24*P*
Amino nitrogen, placental transfer of α- (guinea-pig), 583
Amylase, intracellular localization in pancreas of (dog), 553
Angiotensin, drinking and diencephalon injection of fragments of (rat), 295
effect on Na-pumping of (rat), 31*P*
Angiotensin-like activity, rabbit blood, 21*P*
Antidiuretic hormone, electrical activity of supraoptic units and secretion of (rats), 245
Aortic arch, effect of pulsatile pressure in (dog), 51
effect of pulse rate and pulse pressure in (rabbit), 65
hypothermia and baroreceptor responses of the (rabbit), 201

Baroreceptors, hypothermia and aortic arch (rabbit), 201
pulse, pulse pressure, mean pressure and (rabbit), 65
Blood flow, effect on diving pressor response of (duck), 457
Brown adipose tissue, environment and growth of (rabbits), 191
Bulbocapnine, effect on brain-stem inhibition, 16*P*
Bursectomy, glycaemic response of fowls and, 22*P*

Calcium, adaptation to dietary intake of, (rat), 35*P*
control of permeability by internal, 481
early phase of entry of (squid), 33*P*
extracellular olfactory recording and (guinea-pig), 46*P*
Carotid sinus, effect of pulsatile pressure in (dog), 51
Catecholamines, effect of on heart of (dog), 15
C fibres, presynaptic depolarization and, 29
Chloride efflux, analysis of smooth muscle (guinea-pig), 393
Chloride gradient, red cell ion movements and, 509
Chloride ions, distribution in smooth muscle of (guinea-pig), 225
Chronotropic effect, catecholamines and (dog), 15
Cones, receptive fields of (turtle), 265
Cutaneous nerve, spinal cord input from (cat), 47*P*

Diencephalon, drinking and injection of angiotensin fragments and precursors into (rat), 295
Diving, pressor response to (duck), 457
Drinking, peptide precursors and peptide fragments of angiotensin and (rat), 295

Electrode position, method for determining, 12*P*
Ethacrynic acid, muscle sodium fluxes and (frog), 327

Gastric emptying (pig), 45*P*
Gastric motor units, location in medulla of (sheep), 39*P*
Gastric secretion, splanchnic nerve stimulation and (cat), 1
Gastro-intestinal tract, heat production of (dog), 417
Growth hormone, exercise body temperature and (man), 25*P*

Heart rate, effect on diving pressor response of (duck), 457
Heat acclimatization, 15*P*
Heat-production, gastro-intestinal (dog), 417
Hepatic portal circulation, influence on urine flow of (dog), 571
Hippocampal slices, experiments with, 7*P*
Hypothermia, aortic arch baroreceptors and (rabbit), 201

Injury, shivering thermogenesis and (rat), 599
Inotropic effect, catecholamines and (dog), 15
Intestinal transport, alanine isomers and (rat), 105
Intrathoracic pressure, aortic baroreceptors and (rabbit), 89
Ions, membrane properties of pregnant uterus and (rat), 173

Kallikrein, intracellular localization in pancreas of (dog), 553
Kidney, formation of lymph by the (sheep), 365

Lipoprotein, intestinal and hepatic lymph and content of (calf), 443
Lithium, inhibition of vasopressin by, 43*P*
Lung nerves, electron microscopy, 6*P*
Lymph, kidney lymphatics and the formation (sheep), 365
lipoprotein in hepatic and intestinal (calf), 443
Lymphatics, formation of lymph and renal, (sheep), 365

Micro-environment, particles in, 3*P*
Microtubules, inhibitors of mitosis and platelet, 145
Mitosis, blood platelet aggregation and inhibitors of, 145
Motoneurones, spatial synaptic distribution on (cat), 305
Mucosal blood flow, splanchnic nerve stimulation and (cat), 1
Muscle, depolarizing venom from *Naja nivea* and (frog), 27*P*
incorporation of phosphate in stretched, 40*P*
tension and phosphate incorporation in glycerinated, 41*P*
Muscle spindle, film of, 1*P*
Muscle spindles, fusimotor control of fibres of, 30*P*

Neuromuscular junction, activity and pharmacology of, 17*P*
Nicotine, fourth ventricle vasodilation stimulated by, 5*P*
Nictitating membrane, release of noradrenaline from (cat), 159
Noradrenaline, release from nictitating membrane of (cat), 159
subcellular distribution of (cat), 13*P*

Odour, olfactory lobe coding of (cockroach), 127
Oestrous cycle, variation of mucosal transport and (rat), 257
Olfactory lobe, odour coding in (cockroach), 127
Optic tectum, laminar organization of (pigeon), 44*P*
Oxytocin, electrical activity of supraoptic units and secretion of (rats), 245

Pancreas, intracellular localization of enzymes in (dog), 553
Paraventricular neurones, effect of ACh and noradrenaline on, 28*P*
Paraventricular units, secretion of oxytocin and ADH and electrical activity of (rats), 245
Permeability, control by internal calcium of, 481
Placental, transfer of α-amino nitrogen across (guinea-pig), 583
Platelets, mitosis inhibitors and aggregation of, 145
Portal vein, membrane properties of smooth muscle from (guinea-pig), 427
Potassium efflux, analysis of smooth muscle (guinea-pig), 393
Potassium movements, chloride gradient and red cell, 509
Presynaptic depolarization, cutaneous C fibres and, 29
Progesterone, adrenal contribution to total (rat), 115
Protein transport, ionic dependence of intestinal (pig), 349
Pulse pressure, and baroreceptor activity (rabbit), 65

Receptive fields, cone (turtle), 265
Rectal muscle layers, a preparation for studying, 19*P*
Red cell, chloride gradient cation movements in, 509
control of permeability by calcium concentration in, 481
Renal hyperplasia, 14*P*
Renal papilla, solute concentrations of, 9*P*
Retina, receptive fields of cones (turtle), 265
Retinotectal projections, double-ventral compound eye and (*Xenopus*), 37*P*

Shivering, injury and thermogenesis by (rat), 599
Skin heating, nerve response to, 377
Smooth muscle, distribution of chloride in (guinea-pig), 225
effluxes of Na, K and Cl, from (guinea-pig), 393
membrane properties of portal vein (guinea-pig), 427
Na exchange in vascular, 20*P*
Sodium efflux, analysis of smooth muscle (guinea-pig), 393
Sodium fluxes, effect of ethacrynic acid and sulphydryl reagents on (frog), 327
Sodium movements, chloride gradient and red cell, 509
Sodium transport, oestrous variation of mucosal (rat), 257

Splanchnic nerve, gastric secretion and mucosal blood flow and (cat), 1
Sucking, forestomach motility and, 34*P*
Sulphydryl reagents, muscle sodium fluxes and (frog), 327
Supraoptic units, secretion of oxytocin and ADH and electrical activity of (rats), 245
Sympathetic ganglion, ACh synthesis and release in (cat), 537
Synaptic distribution, motoneurone inhibitory (cat), 305

Thermogenesis, injury and shivering (rat), 599
Trypsin, intracellular localization in pancreas of (dog), 553

Urine flow, influence of hepatic portal circulation on (dog), 571
Uterus, ions and membrane properties of pregnant (rat), 173

Vasomotor responses, pulsatile pressure stimulation of baroreceptors and (dog), 51

Water transport, oestrous variation of mucosal (rat), 257
